Dear Sir/Madam,

I have been working in an oil company for the last 13 years with a 5 weeks rotation. I volunteered during my vacation in many places like Discovery Museum, BGCTM, Kiwanis, Gentiva Hospice, etc in Reno, NV, and Chinmaya, SNMCDC, Computer Core, etc Herndon, VA. I would like to work in a company where I can utilize my computer, electronics and mechanical knowledge.

I started working as a computer hardware engineer in HCL after completing my Diploma in electronics. I was the state first rank holder in 2004. 2 years later I joined Schlumberger, the worlds largest oil company. Now I'm a part of Shearwater GeoSolutions, as Schlumberger sold this company. With 13 years of working there, I learned a lot regarding quality, working customer expectations, dealing with people, etc. I had a chance to work/visit 40+ different countries and worked with 50+ different nationalities. I completed my B. S in Computer science(AMIE) with 8.0 CGPA while working in Schlumberger.

Even my job is offshore surveying/exploration, I was taking care of onboard PCs, Servers, Networking etc as a Vessel Network Admin. Which gives me 14 years of computer hardware knowledge. I still enjoy electronics troubleshooting and installation. I'm good with Java/Spring/Hibernate software programming.

Another interesting field is Mechanical work like handyman. I'm good with electrical, plumbing, drywall, painting, flooring, carpentry, car repair, etc.

Thank you for your time and consideration. I look forward to speaking with you more about the opportunity.

Yours Faithfully,
Sandeep.
